SERVICE & PORTFOLIO

“Science to Message, Beauty to Experience.”

Complex science, understood at a glance.

We visualize medical, derma and bio technology as expert 3D/MOA films and interactive content.

Core Services

Keeping the science precise and the message simple — we connect the two.

01 MOA 3D Animation

Rendering a drug or ingredient's mechanism of action with medical accuracy and premium visuals

02 2D Animation & Brand Film

Content optimized for brand launch, education and sales channels

03 AR & Interactive Content

Immersive experiences for exhibitions, conferences and digital channels

04 Translating science into message

Visual communication that investors, partners and consumers grasp instantly

Signature Reference

An invisible drug mechanism, turned into a scene anyone can grasp.

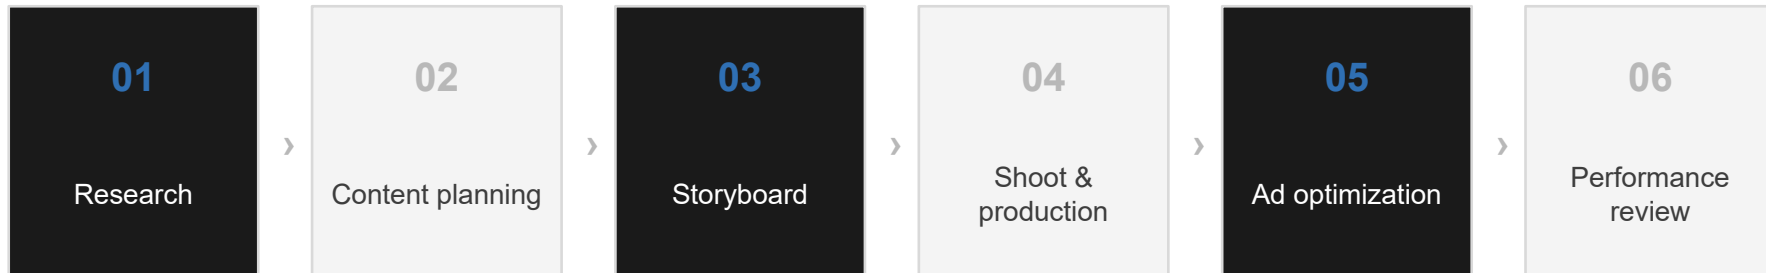

Soliris MOA Animation

A global pharmaceutical project (NDA). A 3D animation reconstructing, at the molecular level, how the drug binds complement protein to suppress an excessive immune response — conveying a complex biological mechanism intuitively, grounded in medical accuracy.

**Based on materials provided; quantitative performance figures are not included.*

Production Process

From research to final delivery, we confirm direction together at every step.

Fields of Application

For brands that must explain science — we work wherever science lives.

Derma · Beauty

Ingredients · efficacy · mechanism

Pharma · Bio

Disease · therapy · pipeline

Medical devices

Structure · usage · engineering

Healthcare

Education · diagnosis · animal health

“The partner in proving your technology”

Not just a video studio, but a communication strategy partner that makes your technology convincing.

“Science to Message, Beauty to Experience.”

Let's prove the essential value of your technology, together.
